SUMMARY

Software Engineering Graduate with experience in full-stack software development, IT governance exposure, and AI data annotation. Completed a 24-week Internal Audit internship supporting IT compliance, disaster recovery, and governance initiatives, alongside freelance work in AI model evaluation and bilingual (Malay-English) data annotation. Experienced with Python, JavaScript, React, Flutter, Node.js, MySQL and MongoDB through academic and personal projects.

EDUCATION

Bachelor of Software Engineering with Honours (University Malaysia Sarawak) Graduation: Nov 2026	2022 – 2026
Foundation in Physical Science (Universiti Malaysia Sarawak)	2021 – 2022
Malaysian University English Test Band: 4.0	2022

PROJECTS

Hand Gesture Controller for Navigation Gameplay Zenith Driven	2026
- Developed a real-time computer vision system (Python, OpenCV, MediaPipe) recognizing 7 hand gestures to control browser-based navigation gameplay built with HTML/JS (Phaser.js) and MySQL. - Trained a custom hand gesture classifier using a dataset of 1,400+ labelled images across 7 gesture classes using MediaPipe Model Maker/TensorFlow in Colab, achieving 90% recognition accuracy. - Delivered full RAD-lifecycle documentation independently, web application is deployed while running the gesture recognition system module locally.	
Healthcare Web Application Med ID	2026
Conceptualized and built a patient-data sharing solution across Malaysian clinics and hospitals using HTML/JS, placed 1st runner up for Healthcare Hackathon 2026 in team of 5.	
QR-based Event Web Application MemoryLane	2026
Programmed full-stack event platform for real-time photo upload (HTML/JS, Node.js, MongoDB, WebSockets), currently running locally.	
Digital Platform Development Group Project Mr Lowat Bakery Apps	2024
- Contributed to the frontend with Flutter, backend integration (Firebase) to manage inventory/order management app and documentation with Agile methodology in a 5 members team. - Constructed a companion bakery website (CSS, PHP, JavaScript, SQL database) to support online orders and customer interactions.	

EXPERIENCE

DataAnnotation AI Training Data Freelance	May 2026
- Designed 3 complex system prompts to train and benchmark AI model behaviour in bilingual (Malay and English) settings for Beryllium Project. - Evaluated model responses against internal accuracy metrics and instruction-following criteria.	- Present
Permodalan ASSAR Sdn. Bhd. (Amanah Saham Sarawak) Intern	Mar 2025
- Automated Excel-based reporting for investor, sales, and summary documentations, reducing repetitive manual errors and improving reporting efficiency. - Supported Disaster Recovery Plan (DRP) testing: verified backups, reviewed cloud retrieval processes, learnt system integration with vendor-managed infrastructure. - Prepared board papers for 3 quarterly governance meetings (AAMSB, ASSB, CGRM/GACC) and reconciled 6 monthly cash counts against ledger records - Proposed UI and content improvements for the company's investment-facing website.	- Sept 2025
Sarawak Information Systems (SAINS) ICT Support Service	Aug 2024
- Volunteered for SUKMA Games XXI 2024, providing onsite ICT support at the shooting range venue - Provided 3 hardware setups, system monitoring, troubleshooting, and issue reporting over the 8-day event period to ensure smooth venue operations.	
AFD Facilities Resources Data Collector	Sept 2023
Recorded and categorized building defects across 2 buildings by severity as part of a 12-member team under the supervision of AFD Facilities Resources (Malaysia) engineers, contributing to structured building audit UTM2 reporting.	

AWARDS & ACHIEVEMENTS

1st Runner Up AI Healthcare Hackathon 2026 Developed an AI healthcare technology prototype within 6 hours, placing second among 17 teams.	2026
Dean List for Semester 7 2025/2026 GPA: 3.59	2026
3rd Place XLION Mini Handball Tournament Competed as a team for UNIMAS Hornbill	2025
Dean List for Semester 4 2023/2024 GPA: 3.53	2024
3rd Place Volleyball Athena's League 2024 Competed in Inter-block sports tournaments.	2024

CERTIFICATION & TRAINING

NSS by The Government of Malaysia Introduction to ARM On-Demand Training Programme	2026
APAC Cybersecurity Fund Cybersecurity Training for SMEs & Entrepreneurs	2025

TECHNICAL SKILLS

Languages Python, JavaScript, Java, C, C++, Dart, PHP, HTML/CSS
Frameworks/Libraries Flutter, React, OpenCV, MediaPipe, TensorFlow, Phaser.js
Databases/Cloud MySQL, MongoDB, Firebase Storage
Tools/Technologies/DevOps: Git/GitHub, Vercel, Render, Figma, WebSockets, Vite, Node.js

LANGUAGES

Fluent: English, Bahasa Melayu
