SUMMARY

Fresh Graduate Software Engineering student (graduating November 2026) with experience in full-stack software development, IT governance, and AI data annotation. Completed a 24-week Internal Audit internship supporting IT compliance, disaster recovery, and governance initiatives, alongside freelance work in AI model evaluation and bilingual (Malay-English) data annotation. Adaptable, detail-oriented, and eager to contribute to innovative software engineering teams.

EDUCATION

Bachelor of Software Engineering with Honours University Malaysia Sarawak CGPA: 3.12	2022 - 2026
Foundation in Physical Science University Malaysia Sarawak CGPA: 3.18	2021 - 2022
Malaysian University English Test Band: 4.0	2022
Malaysia Certificate of Education (SPM) Sekolah Menengah Kebangsaan Agama Tun Ahmad Zaidi	2020

PROJECTS

Hand Gesture Controller for Navigation Gameplay Zenith Driven	2026
- Developed a full-stack hand gesture recognition system using Python, OpenCV and MediaPipe libraries as a controller built with an HTML/JS frontend and Aiven hosted MySQL database. - Trained a custom MediaPipe Model Maker classifier using a dataset of 1,400+ labelled hand gesture images across 7 gesture classes, achieving 90% recognition accuracy for a real-time computer vision application - Applied software engineering practices (RAD) and produced structured technical documentation throughout the project development lifecycle with Microsoft Words.	
Digital Platform Development Group Project Mr Lowat Bakery Apps	2024
- Developed a Flutter mobile app integrated with Firebase to manage inventory, orders and customer information for Mr. Lowat Bakery - Built a companion bakery website using CSS, PHP, JavaScript and a SQL database to support online orders and customer interactions. - Combined both platforms into one connected digital presence covering in-app ordering, inventory tracking and web-based customer engagement.	

ADDITIONAL PROJECTS

Healthcare Web Application Med ID A working demo connecting patient records across Malaysian clinics and hospitals using HTML/JS for Healthcare Hackathon 2026	2026
QR-based Event Web Application MemoryLane Full-stack event platform for real-time photo upload and live gallery display (HTML/JS, Node.js, MongoDB, Firebase Storage, WebSockets)	2026
Service-Learning Project (SULAM) AI Literacy & Scratch Workshop Facilitated AI/Scratch workshops for primary school students at SK Muhibbah, including chatbot creation and interactive Kahoot assessments	2025
UI/UX Designer Carlo Rino UI/UX Competition Designed an e-commerce UI/UX prototype in Figma as part of a 4-member team.	2024
Learning Game Java Built a Java quiz game teaching introductory C programming concepts.	2024
UI/UX Project UNIMAS Shop Prototyped a digital shop platform focused on usability and accessibility.	2024

EXPERIENCES

DataAnnotation AI Training Data Contributor (Freelance)	May 2026 - Present
- Designed 3 complex system prompts to train and benchmark AI model behaviour in bilingual (Malay and English) settings for Beryllium Project. - Evaluated models responses against internal accuracy metrics and instruction-following criteria.	
Permodalan ASSAR Sdn. Bhd. (Amanah Saham Sarawak) Intern	Mar 2025 - Sept 2025
- Completed a 24-week internship in the Internal Audit Department, assisting with GTRM documentation and operational audit support while gaining exposure to IT governance and corporate audit practices. - Supported DRP testing by verifying file backups, reviewing the cloud retrieval process, and checking system integration between internal systems and vendor-managed infrastructure.	

- Managed data entry for investor, sales, and dividend records (SGPA, HQ counter, corporate sales) in compliance with FIMM regulations, applying Excel formulas to automate calculations and improve reporting accuracy.
- Performed monthly cash counts for Finance and Operations, reconciling figures against the daily cash balance, cash book, and general ledger.
- Assisted in preparing and formatting board papers for AAMSB, ASSB, and the CGRM GACC meeting.
- Contributed UI and content structuring suggestions for the company website to strengthen user engagement with investment-related content.

Sarawak Information Systems (SAINS) | ICT Support Service

Aug 2024

- Volunteered for SUKMA Games XXI 2024 providing onsite ICT support at the shooting range venue
- Delivered 3 hardware setup, system monitoring, troubleshooting, and issue reporting over the 8-day event period to ensure smooth venue operations.

AFD Facilities Resources | Data Collector

Sept

2023

- Recorded and categorized over 2 buildings with defects by severity as part of a 12-member team under the supervision of AFD Facilities Resources (Malaysia) engineers, contributing to structured building audit UTM2 reporting.

AWARD & ACHIEVEMENT

1st Runner Up AI Healthcare Hackathon 2026 Built a AI Healthcare against 17 teams in 6 hours	2026
Dean List for Semester 7 2025/2026 GPA: 3.59	2026
Dean List for Semester 4 2023/2024 GPA: 3.53	2024
3rd Place XLION Mini Handball Tournament Competed as a team for UNIMAS Hornbill	2025
3rd Place Volleyball Athena's League 2024 Competed in Inter-block sports tournaments.	2024

CERTIFICATION & TRAINING

APAC Cybersecurity Fund Cybersecurity Training for SMEs & Entrepreneurs
NSS by THE GOVERNMENT OF MALAYSIA Introduction to ARM On-Demand Training Programme

TECHNICAL SKILLS

Programming Python, Java, C, C++, JS, Dart, PHP, HTML, CSS
Databases & Cloud mySQL, MongoDB, Firebase Storage, Aiven
Frameworks & Tools Flutter, Node.js, React, Vite, Laravel, OpenCV, Phaser.js MediaPipe, Firebase, WebSockets, Figma

LANGUAGES

Fluent in English, **Fluent** in Bahasa Melayu, **Proficient** in Arabic Writing
