SUMMARY

Software Engineering Graduate with experience in full-stack software development, IT governance, and AI data annotation. Completed a 24-week Internal Audit internship supporting IT compliance, disaster recovery, and governance initiatives, alongside freelance work in AI model evaluation and bilingual (Malay-English) data annotation. Adaptable, detail-oriented, and eager to contribute to innovative software engineering teams.

TECHNICAL SKILLS

Languages | Python, Java, C, C++, JavaScript, Dart, PHP, HTML, CSS
Frameworks/Libraries | Flutter, React, Node.js, OpenCV, MediaPipe, Phaser.js
Databases/Cloud | MySQL, MongoDB, Firebase Storage
Version Control | Git/Github
DevOps/Deployment | Docker, Vercel, Render
Tools/Technologies | WebSockets, Figma, Vite

EDUCATION

Bachelor of Software Engineering with Honours (University Malaysia Sarawak)	2022 - 2026
Foundation in Physical Science (University Malaysia Sarawak)	2021 - 2022
Malaysian University English Test Band: 4.0	2022

PROJECTS

Hand Gesture Controller for Navigation Gameplay Zenith Driven	2026
- Developed a real-time computer vision system using Python, OpenCV and MediaPipe libraries enabling 7 gestures to control navigation gameplay via a web-based application with HTML/JS (Phaser.js) and MySQL database. - Trained a custom MediaPipe Model Maker classifier using a dataset of 1,400+ labelled hand gesture images across 7 gesture classes using TensorFlow in Colab, achieving 90% recognition accuracy for a real-time computer vision application - Applied software engineering practices (RAD) and produced structured technical documentation throughout the project development lifecycle with Microsoft Word.	
Digital Platform Development Group Project Mr Lowat Bakery Apps	2024
- Developed a Flutter mobile app integrated with Firebase to manage inventory, orders and customer information for Mr. Lowat Bakery - Built a companion bakery website using CSS, PHP, JavaScript and a SQL database to support online orders and customer interactions. - Combined both platforms into one connected digital presence covering in-app ordering, inventory tracking and web-based customer engagement.	

ADDITIONAL PROJECTS

Personal Website Deployed on Vercel Designed and developed a portfolio to showcase projects and personal information using React and Vite	2026
Healthcare Web Application Med ID Built a working prototype demonstrating patient-record sharing across Malaysian clinics and hospitals using HTML/JS for Healthcare Hackathon 2026	2026
QR-based Event Web Application MemoryLane Full-stack event platform for real-time photo upload and live gallery display (HTML/JS, Node.js, MongoDB, Firebase Storage, WebSockets)	2026
Service-Learning Project (SULAM) AI Literacy & Scratch Workshop Facilitated AI/Scratch workshops for primary school students at SK Muhibbah, including chatbot creation and interactive Kahoot assessments	2025
UI/UX Designer Carlo Rino UI/UX Competition Designed an e-commerce UI/UX prototype in Figma as part of a 4-member team	2024
Learning Game Java Built a Java quiz game teaching introductory C programming concepts.	2024
UI/UX Project UNIMAS Shop Prototyped a digital shop platform focused on usability and accessibility.	2024

EXPERIENCE

DataAnnotation AI Training Data Contributor (Freelance) - Designed 3 complex system prompts to train and benchmark AI model behaviour in bilingual (Malay and English) settings for Beryllium Project. - Evaluated model responses against internal accuracy metrics and instruction-following criteria.	May 2026 - Present
Permodalan ASSAR Sdn. Bhd. (Amanah Saham Sarawak) Intern - Completed a 24-week internship in the Internal Audit Department, assisting with GTRM documentation and operational audit support while gaining exposure to IT governance and corporate audit practices. - Supported DRP testing by verifying file backups, reviewing the cloud retrieval process, and checking system integration between internal systems and vendor-managed infrastructure. - Contributed UI and content structuring suggestions for the company website to strengthen user engagement with investment-related content. - Managed data entry for investor, sales, and dividend records (SGPA, HQ counter, corporate sales) in compliance with FiMM regulations, applying Excel formulas to automate calculations and improve reporting accuracy. - Performed monthly cash counts for Finance and Operations, reconciling figures against the daily cash balance, cash book, and general ledger to identify discrepancies and strengthen financial controls. - Assisted in preparing and formatting board papers for AAMSB, ASSB, and the CGRM GACC meeting.	Mar 2025 - Sept 2025
Sarawak Information Systems (SAINS) ICT Support Service - Volunteered for SUKMA Games XXI 2024, providing onsite ICT support at the shooting range venue - Provided 3 hardware setups, system monitoring, troubleshooting, and issue reporting over the 8-day event period to ensure smooth venue operations.	Aug 2024
AFD Facilities Resources Data Collector Recorded and categorized building defects across 2 buildings by severity as part of a 12-member team under the supervision of AFD Facilities Resources (Malaysia) engineers, contributing to structured building audit UITM2 reporting.	Sept 2023

AWARDS & ACHIEVEMENTS

1st Runner Up AI Healthcare Hackathon 2026 Developed an AI healthcare technology prototype within 6 hours, placing second among 17 teams.	2026
Dean List for Semester 7 2025/2026 GPA: 3.59	2026
3rd Place XLION Mini Handball Tournament Competed as a team for UNIMAS Hornbill	2025
Dean List for Semester 4 2023/2024 GPA: 3.53	2024
3rd Place Volleyball Athena's League 2024 Competed in Inter-block sports tournaments.	2024

CERTIFICATION & TRAINING

NSS by The Government of Malaysia Introduction to ARM On-Demand Training Programme	2026
APAC Cybersecurity Fund Cybersecurity Training for SMEs & Entrepreneurs	2025

LANGUAGES

Fluent in English, Fluent in Bahasa Melayu, Proficient in Arabic Writing
